Jane Brattain Breast Center
COMMUNITY IMPACT REPORT

JANE BRATTAIN BREAST CENTER is designed by women, for women, with the latest technologies and experience professionals dedicated to breast imaging and breast health. Patient comfort and convenience are priorities for use. Our goal is to keep you well and minimize your sleepless nights.

2013 HIGHLIGHTS

The WCCO "Girls with Guitars" concert featuring Sheryl Crow, Kellie Pickler, Gloriana, Maggie Rose and Ashley Monroe benefited the Jane Brattain Breast Center.

Provided free mammograms at community outreach events with the Mammo a-go-go Community Outreach Fund to bring screening mammograms to women in their own communities.

Established corporate outreach for mammography onsite at businesses to reduce barriers to screenings.

One in eight women will be affected by breast cancer, according to National Institutes of Health.

DONORS MAKE IT HAPPEN

Gifts from our donors help us provide transformational care. Contributions support:

- Technology to provide the latest in screening and diagnostic care
- Continuing education to keep clinicians current on the latest medical advances
- Outreach to women in underserved communities
- Education to help women and families understand the importance of early screening and detection
- Assistance program for women in need

There are 2.8 million breast cancer survivors in the United States

-American Cancer Society
