

Choosing a pediatric or family medicine provider for your baby

As your baby's birth date approaches, it is important you select a health care provider to care for your baby. Pediatric providers care for children from birth through age 18. Family medicine providers care for all family members, birth through geriatrics.

For information on providers' clinic locations, educational backgrounds and special medical interests, visit parknicollet.com.

Please call your selected clinic to schedule an appointment.

Pediatric providers at Park Nicollet Clinic

Bloomington **952-993-2400**
