

Lifeline is a personal response service for people to use at home. Subscribers, and those who care about them, tell us Lifeline supports their independent living and peace of mind. With Lifeline, help is available 24 hours a day, 365 days a year, at the press of a button.

Why Lifeline?

Lifeline is the No. 1 medical alert service trusted by thousands of hospitals and healthcare professionals. It has given more than 6 million people the peace of mind and confidence to continue living independently.

You can help

For more than 30 years, Park Nicollet Methodist Hospital Lifeline has depended on volunteers for office support and Lifeline installation. For more information on how you can help, call **952-993-6474**.

PHILIPS Lifeline

Personal response and support services from Park Nicollet Methodist Hospital

952-993-6474

How it works

1. Summon help

Simply push your Lifeline help button at any time to connect to our response center. If you have the Auto Alert option, help will automatically be called if a fall is detected.

2. Hear a reassuring voice

A Lifeline response associate responds through your communicator's two-way speaker.

3. Help is on the way

Your Lifeline response associate will contact a neighbor, relative or emergency services, depending on what you need – and will follow up to ensure help has arrived.

"I think Lifeline is wonderful. After my stroke, I couldn't get to the phone. Lifeline saved my life." – Mary M.

Getting started

Select a service:

The standard Lifeline includes your choice of a pendant- or wrist-style personal help button. When help is needed, simply push the button.

NEW! Lifeline with AutoAlert features the personal help button, but will also automatically place

a call for help if a fall is detected and you are unable to press your button. This option is only available in a pendent-style button.

Both the standard and AutoAlert personal help buttons are waterproof and may be worn in the tub or shower.

Select a communicator:

The CarePartner communicator

works with your existing telephone to provide a direct, two-way connection to Lifeline.

The cordless phone communicator

is a Lifeline communicator and a cordless phone in one. The cordless phone has a large display and enhanced sound quality.

How to order

For current pricing and information, call **952-993-6474**.

"As a social worker, I recommend Lifeline to ensure home safety. It helps people maintain their independence."
– Joy L.
