

Innovative surgery center

Surgery center expansion and enhancement

New healing-inspired patient rooms

Adding two floors on the east tower

Renovating existing patient areas

Energy-saving design

Building the future. Caring for you. | 2015-2019

Enlarged and enhanced surgery center will improve safety and efficiency. Increased number of pre- and post-surgery recovery rooms will help patient recovery and healing. Relocated and remodeled rooms will improve flow to and from the surgery area.
